

UNIVERSITEIT VAN AMSTERDAM

17.03.2017

Dear members of the AESOP Executive Committee;

I have been actively participating AESOP Conferences for about 17 years sometimes just to present a paper or chair a session or a track, sometimes to organize roundtable discussions, and once as a Scientific Organisation Committee member for LOC. For me one of the most exciting moments of an AESOP Conference is the announcement of the Best Paper Awards, Excellence in Teaching, and Best Published Paper Prize as they show scholarly recognition for the great effort planning scholars put together to think outside the box, motivate young planners/scholars and contribute to the future of our profession. Learning about innovations and creativity that are displayed in these efforts fascinates me. That is why I am interested in applying for the Chair of the AESOP Best Congress Paper Award Committee. I see this position as a contribution to the future of our community's academic impact by supporting innovative and creative works of planning scholars.

As you will see in my enclosed CV, I have experience in publishing and editing academic work. I currently sit in the editorial boards of European Urban and Regional Studies (EURS); Journal of Housing and the Built Environment (HBE) and European Journal of Spatial Development (EJSD), and I regularly review articles for relevant academic journals (such as European Planning Studies, Urban Studies, International Urban and Regional Studies, Urban Affairs Review, Regional Studies, etc). Moreover, I regularly organize special sessions for the Association of American Geographers (AAG) around my research interest each year. I believe that these experiences will help me to Chair the AESOP Best Congress Paper Award Committee, which I would do with great pleasure and enthusiasm.

I look forward to your response.

With kind regards,

Tuna Tasan-Kok (Assoc.Prof.Dr)

University of Amsterdam, Department of Social Geography, Urban Planning and International Development
